| Priorty I one (APK) | able to write a location for sub to show up - in APK - | | | | | | | | |
| | As discussed today, 23/8 with Dina that we need to have the ability for customer to provide another location for sub to show up if the advess is different from the customer registration. | • | | | | | | | |
| | It was decided that, the customer profile will have the ability to update customer profile with | | | | | | | | |
| APK | multiple work locations (full advess) (we said upto 5) which before vacacry is published is that customer can just choose what the valid work advess is for that vacacry before publishing The before was discussed with dina on 11 sept: | | Militari and address of the basis of the bas | | | | | | |
| | Ability for Customers to publish a vacancy to their internal pool of substitutes and choose external pool of substitutes (DoHR subs). | | 36/9 Manoj gave update that they are still working on it. The backend is what is the hold off as they need to carefully make the change at the back. He also wave update that the old aris was done? 2 was ano and since we new how | | | | | | |
| | pool of substitutes (DoHR subs). Our suggestion: Please tell us how we can achieve this if you can think of anything else than our | | He also gave update that the old apic was done 2 years ago and since we now have new version it will also take upto a week to complete, when these two points are done the the work will be completed and front end will kick off. ETA - End of this week. Come via whatsapp, agreed to connect on Friday. | | | | | | |
| | suggestions. | | Gave update from our side: referred MK to APK post 4 changes text frontend and APK post 4 changes email text changes shorts, some of the points front these two sheets maybe done already, since it will have an impact once these 4 changes are made. | | | | | | |
| | can we rename recepitent type under Customer apk/Create vacancy/ Select recipient type to following: | | the form of changes trade not changed more of the form to the period of the nature in which maybe done already, since it will have an impact once these 4 changes are made. | | | | | | |
| | following: -Publish to all substitutes (199kr/hr + VAT) change to: Onboarding only -Publish to betcher students only (349kr/hr + VAT) change to: DohR substitutes | | Agreed to connect if any questions. | | | | | | |
| | -Publish to the students only (2000r / In + WAT) change to: Dotht substitutes -Publish to my substitutes (the price) change to: My substitutes (Charges apply for DoHit substitutes) | | 1/10- Dina had a question regarding 2) remove or disable I have left a rang to explain that, cumently when customer published a vacasary to teacher students only, they have as option to say VES (marzing, if the vacasary remains suffiled after 20 minsten that it will publish to all - everyone) however with new publishin option, ability to any yes will read to be removed or disabled. | | | | | | |
| | 2) Disable the ability to publish to all when option Publish to teacher students only or my substitutes in | s · | after 20 manufes that it will publish to all - everyone) however with new publishm option, ability to say yes will need to be removed or disabled. | | | | | | |
| | chosen. Remove or disable button Yes and rename button No to OK and change text within the pop- up message. | • | 14/10: Discussed with MK. Still working on it however they aim to finish by wednesday. In the meantime, he will check with his team and Dina, about the deadline on the 25th and touch base with me on Wednesday the 16th. | | | | | | |
| | 3) Consultant profile - APK / My profile: Rename I am a teacher student to I am a DoHR substitute | | | | | | | | |
| | 3) Consultant profile: APK / My profile: Bename I am a teacher student to I am a DoHR substitute. This input field under the consultants profile need to be read only and ability for consultant to tick this option will be read only (manning initiable) however. Under the Substitutes APK profile under back end admin, we are able to tick and untick this option in behalf of Substitutes. | | | | | | | | |
| | on behalf of Substitutes | | | | | | | | |
| | 4) - this point is something good to have but it is not an urgent necessish; Customir AFX - Ability for customers to create or Asid their own list of internal subs. If this is possible then, it is possible for backen (Jamino Jesseth is side of sides with their allow us to activate and disactivate? And when we activate, it sends outcomers internal subs, login details to access AFX or mixingly equal how supposition on how we also access to AFX considerate when the considers is | See . | | | | | | | |
| | deactivate? And when we activate, it sends customers internal subs, login details to access APK or maybe you have suggestion on how we allow access to APK consultants when the consultant is added by customers and not DotR? | | | | | | | | |
| | added by customers and not DORR? | | | | | | | | |

| | | 24/07- Points in red are not possible | | | | | | | |
| | The following input fields can be non-manufatory tensor partial reads: tensor partial reads: The reads of the control of th | 25/7 SMO T. Dina, we need to discuss this with you in our next meeting. Since we have had access to VM, we found not that Val and Stat cannot negative a laws. Only the SM can approve the Val and Stat cannot negative a laws. Only the SM can approve purpose of having this as rich based permission for now. In purpose of having this as rich based permission for now in order to make the sealer from the end user perspective, we must be able to rename the permission names as well as add few of these input fields so at the backen'd adlesses we will have | | | | | | | |
| | topol field Additional information need to be moved to the bottom of the page—for example not the 3nd input field (much continue as tick bosseth test Send the now more or creat with loain condentials.) | all the information we need. Invoice ref is also not possible to be removed since we need to where to send invoice and what to | | | | | | | |
| | (may be option as a tick bowith text. Send the now user an ernall with login credentials. When this it tick bound then the system automatically send the ernal to user or maybe this is already inbailt when the create between its presend in that case we need to be say a file information that states that when Add to presend the login credentials will be shared via the work creat advent. | values or Ad hoc vacanty is that we get all that information in the backand so we can invoice \$1/7. Dina will check the backand end database before going live. | | | | | | | |
| | | live. | | | | | | | |
| | HQ Management reason to Shared access Teacher reasons to Distra cacces School Management reasons to Management access School Management reasons to Management access SCH Man 177717 (we don't what this nine does) The above drop down should be in the order of User access, Shared access, Management access | | | | | | | | |
| Institute log in | Will the institute louin can edit sole / neromission for existing or already added user, for example can the role b | you can't change the role | | | | | | | |
| | changed from Teacher to School management or vice verse? Also can any of th distinguished at the time of crusting a new user be edited at later stage? (for example, when the person is promoted) | 56 Just want to double check that, we mean by changing the text of these relea not the factionality - Can you please confirm if this is possible 18.7 we will show you in one next meeting, and then you can decide if this need to be discussed with Dea | | | | | | | |
| HO management Login + | Create vacancy: | 31/7: Dina will check how promotion elment from teacher to SM will | | | | | | | |
| HQ management Login + School management login | lapset field: Location - assuming that the information is coming from work advers when new user was created however it need to show full advers details plus allow user to add more than one working location | to check in many of the places both in backend and frontend, so better we can work on this after sive, because it meeds to be changed in app. so it requires app update in playstone. | 60.97-Does Increased vectors by it was all any fidely then we need to check in many of the places both in helicitude and financial to helicitude and the other was can swork on this side for the because it sends to be delanged in app, not it experies app quadrant or playment. | | | | | | |
| | | 17/ 7 need to talk more in detail with Dina | | | | | | | |
| HO management Login + | absene management/vacancies/Unvovered. | 31/7: discussed with Dina and it will be worked before going live 05/08 Completed | 27/11 - chendrayan -completed | | | | | | |
| School märagment lõgin | does management / vacarios / Unvested. appear that lessons are debbling up under the view which makes it very delitical to understand if noting is under greetly. For except, we which it is now to lessons to be published costumely and it is not not if it which the publish externally, it takes the first selected one and moves that one to covered and other stays under uncovered. | 5/8 hard to last as we suspect this is happening with my schedule being doublied up and when leave in construction doubled up scheduled it is showing as dubbled up under uncovered. Moved this to testing sheet to test before going live. | | | | | | | |
| | | 30/07-Dina: We have feedback in my covered; but I covered is done by the person himself. Why do we need feedback for it? Also, who will provide feedback? | Consultant Feedback Gat FeedBack Vacancy gat my covered | | | | | | |
| | | Sectional? 307 - SM/OT to covered will fat all lessons which for example, (bascher 1) has covered for (bascher 2) therefore bascher 1 need to have option to give lesseback to backer 2, which will show up under receiver feedback for hasher 2 under the covered receiver feedback for hasher 2 under the processes. Right now yell reclassics cliption is intering runnier (, covered. | | | | | | | |
| | | 03/08 :chendrauan Completed 8/8 the button give feedback works however moving this to before going live sheet since functionality behind any of these are not workline. | | | | | | | |
| | Absence Management/Cover Management/L Covered lesson Give feedback option was once seen but now it is missing from this page. Can you check to make sure that it is available and it is just a deployment issue | are not working. | | | | | | | |
| Teacher log in Teacher log in | | 22/7-Manej completed 24/7 SMO T: Still not working 100% maybe we can show you in our | | | | | | | |
| | The state of the s | calls. We are not able to declete the uncovered which also iscens files in dubbling up and not reflicting the schedule to the the page create schedule as well as uncovered need to be cleanup to see that these things are working. Maybe you can remove it all or show us oncall 05/08/Correlated. | | | | | | | |
| | the submit batton however before adding this 2nd line it gave error mag about one or more fileds being incomplete. Now when I clicked on submit again it gave error mag about one or more fields not complete and that is hapsing because the top line when the plass sign is, being recognised as incomplete. But from sore perspective, I added two lines of different schooled and I should be able to submit. we need to allow adding of two lines whichold have data superties to the line where the plus sign is. | 8.8 - shared pictures - still problem-maybe you can show us. 14/8 - SMO T. We are still experiencing the same issues despite your whatsupp mag on 15 Aug, can we connect so we can show you what | | | | | | | |
| | ame 3-1 was able to submit more than one line of school to however it is debbling, trippling and at the last- atumpt is showed up 5 times the same line—you can refer to three day on any school to page to see how it is showing up making to times. | | | | | | | | |
| | bouse it is get mandatory disklo not being completed and when I filled the reg, it still added the sechable under my schooline. The sechable is a schooline with different start time and time at different sections and admitted, it is a schooline in the school is an admitted with different start time and time at different sections and admitted, it | Menday weeked however Tuenday did not work with issue I Tuenday is didbling up the schedule entries as well as we are experiment; justed 5 with error may of overlapping and in raility there is not overlapping. You can check with TEC3 logis so you can see it more clearly the issues we are writing. Also please confirm if you have only fined the issue for Menday to show is and others day are said low frond? | | | | | | | |
| | restring the arrays or among so that uses a skyle to manage apply ago in other educating in the soldage in this way. Here a look at our example of Manalay 1805-1110 which should be seen after the NO subject 1100-1200 inite 5. The system constantly gives message about overlapping time de when in reality there is no overlapping | | | | | | | | |
